ORGANIZE YOUR GARAGE

Tap into the extra space of this overlooked area

Jeffrey Phillip
Organizing Expert
@jeffrey_phillip

BUILD HIGH, NOT WIDE

Wall-hung cabinets and shelving systems allow for vertical storage and take advantage of wall space. Pack supplies in plastic storage bins when possible to keep out dust, moisture and grime.

CREATE A MUDROOM

Designate a location near the entrance into the house. A simple bench, a hefty doormat, a boot tray, hooks and more will help reduce mess and clutter inside your home.

OUTLINE ZONES

Use painter's tape or masking tape on the floor and walls to mark where various types of belongings go. Store toys as far as possible from parking spots to avoid dings, and house chemical items well out of children's reach.

PUT UP PEGBOARDS

They're great for hanging tools from rakes to screwdrivers. Find one at a hardware store, then paint it and draw an outline around each item with permanent marker to make clean-up straightforward.
